

Please join us in May for another great speaker

**NOTE NEW DAY THIS MONTH ONLY**

**Denver Entrepreneur Meetup**

May 29, 2008 6:30 -8:30 PM

Perrin Room, Englewood Public Library

1000 Englewood Parkway

Englewood

**Slow Down and Accomplish More**

Slowing down and smelling the flowers is a nice thought, but how can you really do that in this age of ever-increasing speed, competition and availability? This presentation answers that question and will teach you practices to help you focus on the task at hand, stop the interruptions and debrief as you go. Slowing down, accomplishing more.

About the Speaker:

Sue Begeman, senior consultant and business coach for Clarity Consultants, specializes in leadership development, communication systems, time management and team effectiveness. She has fifteen years experience coaching, consulting, developing leaders and facilitating meetings within the high tech and health care industries.

NOTE:

The room has a maximum capacity of 37 people. Please only RSVP "Yes" if you are absolutely sure you will be able to attend the meeting. If you RSVP "Yes" and your plans change, please be considerate and change your reservation so that someone else can attend. Once we reach maximum capacity, we will not be able to allow anyone else to come in. The rule of thumb: if you want to attend, RSVP "Yes" and be on time!

MARKETING MATERIALS TABLE:

A table will be set up for you to place your marketing materials on, so bring plenty! There is room for each person to place one item (or items) up to the size of an 8 1/2 x 11 piece of paper.

Directions:

The meeting is in the Perrin Room at the Englewood Public Library. Here's a map: <http://tinyurl.com/22rkc8>. The Library is on the first floor of the Englewood Civic Center. To get to the Englewood Public Library, take Hampden to South Inca Street, and then turn North. You'll see the entrance to the parking structure on the West side of the road, before you get to the Civic Center. There is an entrance to the library on the lower level of the parking structure. If you'd like to get a good look at this area, click on the "Satellite" view on the Google map, and you can see the location of the parking structure and Civic Center.
