

Adamant Pro-Choice? Consider...

- It's not savvy to be a single issue voter – there are many important issues!
- No *one* President will put an end to the abortion debate.
- As an OB/Gyn who delivered 4000 babies, Ron Paul adopted the pro-life position upon witnessing an aborted baby being thrown into a trash can while it cried itself to death.
- Ron Paul is pro-life, yet realizes such legislation falls under State, not Federal jurisdiction.
- Keeping the issue at the State level will encourage outside-the-box thinking, increasing the potential of finding workable solutions.
- Ron Paul wants to eliminate problematic legislation which often leads to contradicting legal judgements.

Adamant Pro-War?

Consider...

- It's not savvy to be a single issue voter – there are many important issues!
- Our American troops have sent more campaign contributions to Ron Paul than any other Presidential candidate – Republican *OR* Democrat! Therefore, if you want to support our troops, you should consider Ron Paul!
- Ron Paul is pro-National Defense, not *OFFENSE* – WE must only go to war through a Congressional declaration according to the U.S. Constitution.
- US Generals say our National Defense is weakened because our military is stretched so thinly.
- The current administration's actions have caused Americans to lose freedom – a victorious morale booster for terrorists and a dishonor to the American soldier.
