

WARM SPIRIT

introducing **restore**

Warm Spirit Restore provides exactly what its name implies – restoration support of your entire body on a variety of levels. Restore is a gentle, whole body supplement that acts as a foundation to all health and wellness programs. This full strength, broad spectrum deep tissue detoxification formula includes Moringa Oleifera enhanced with our exclusive GARN Complex containing Goji berry, Acai, and Noni extracts. Warm Spirit Restore is a whole food that contains over 100 known antioxidants, amino acids, all essential fatty acids, enzymes, lipids, minerals, recommended daily ORAC value and many trace nutrients.

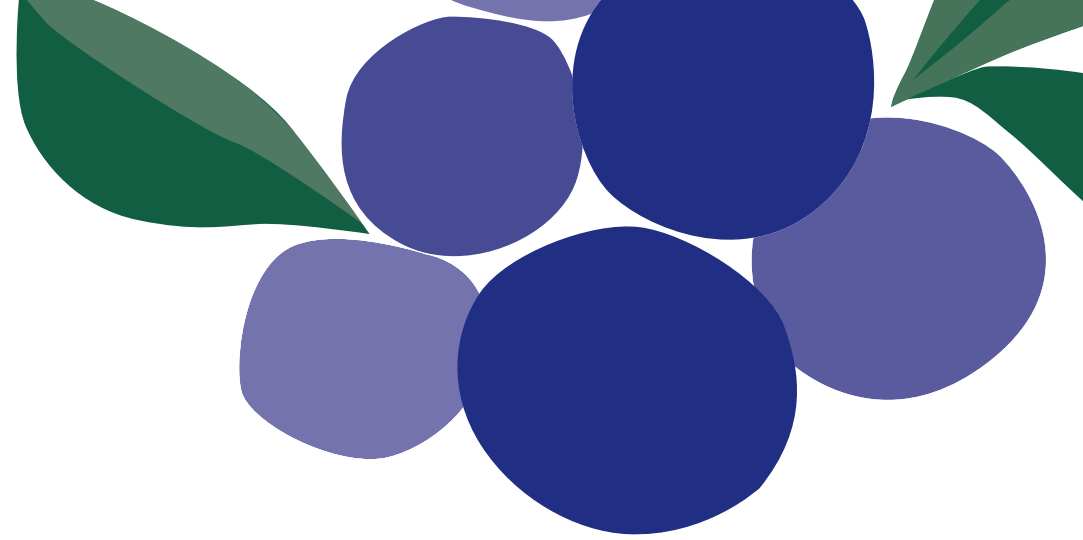

why should you have a deep tissue detoxification?

Detoxification is a primary function of the body, and the body's most energy-consuming metabolic process. The process of a deep tissue detoxification is to help soften, breakup and remove stored toxins from the major organs and deep cell tissues.

Moringa Oleifera... nature's amazing nutrient

Moringa Oleifera is a perennial softwood tree that for centuries has been advocated for traditional medicinal uses. An outstanding indigenous source of highly digestible protein, Vitamin C, carotenoids and other essential nutrients, the leaves of Moringa Oleifera have been used in many countries where undernourishment is a major concern. Information about randomized clinical trials on Moringa Oleifera's medicinal effectiveness can be found at www.pubmed.org.

the power of fruit and restore's GARN complex

Restore's exclusive GARN Complex containing Goji, Acai and Noni extracts is based in RyCenol 100 (stabilized rice bran), the most nutrient dense delivery system available. The Goji berry is indigenous to the Himalayas where it has been used for centuries for its therapeutic properties. The berry's four polysaccharides act as master molecules that help to provide smooth functioning of practically every cell in the body. Acai is an all natural energy fruit derived from Amazon palm berries that is loaded with antioxidants, amino acids, and essential omegas (beneficial fatty acids). Noni, also high in antioxidants, works on the cellular level to benefit nearly every system of the body. These three highly beneficial ingredients have been available individually for many years, but we have combined them in one holistic complex to give you an easy-to-take product that offers some of the world's best nutrition.

the importance of ORAC

ORAC (Oxygen Radical Absorbance Capacity) is a new standard of measurement jointly developed by the National Institute of Aging and the USDA Human Nutrition Research Center on Aging. In simple terms, ORAC measures how well a food or drink renders free radicals inactive. Since free radicals can damage healthy cells in the body, the higher the ORAC value the better.

Restore's powder form makes it cell ready and water soluble, which means it gets right into the bloodstream to help benefit your body as quickly as possible. The berry powders (Goji, Acai and Noni) are loaded with the ORAC factor (super minerals) along with aminos, enzymes, and vitamins which allows for a much more efficient uptake of the product. Without a high mineral count, no vitamins or enzymes can be properly absorbed. Scientists believe daily ORAC intake should be between 3,000 and 5,000 units to absorb vitamins and enzymes effectively. Restore contains an ORAC value up to 5,000 units.

renew, revive, rejuvenate

how does restore work?

Restore's concentrated soluble fruit powder of Goji, Acai and Noni may help in the elimination of toxins caused by daily processing of various factors including weakened glands and organs, alcohol, caffeine, parasites, tobacco smoke, and waste/chemical overloads. This potent formula helps to restore all nutrient levels which are critical for metabolic functions, especially digestion, healing, and strengthening the blood during a deep tissue detoxification.

why should you take restore?

Rapid detoxification programs are harsh and use up massive amounts of nutrients in the body causing an unbalanced pH environment, inflammation, dehydration, and fatigue. Restore is a gentle, whole body supplement that naturally produces all essential fatty acids, coEnzymeQ10, alpha lipoic acid, glutathione peroxidase, and arabinosyl. It is also a source of natural gamma oryzanol. Restore offers powerful, holistic support for a healthy body. It is also one of the richest sources of non-bloating, natural food fiber available.

are there any side effects?

Restore's only known side effect is a diminished appetite.

how do I take restore?

Simply mix one teaspoon of the powder with six to eight ounces of juice or water. Warm Spirit Restore can be stored for up to two years in its air-tight container.

It is common knowledge that a diet containing fruits and vegetables promotes good health, as many of these foods contain high amounts

of antioxidants and vitamins. Since it is often difficult to consume the recommended daily servings of fruits and vegetables, Warm Spirit Restore gives you a perfect way to receive the vitamins, enzymes, and antioxidants you need to support a healthy body. By adding Restore's powerful juice blend, drinking a glass of juice or water can be one of the healthiest things you can do!
