6. A variety of other general improvements are proposed for the island. Which of the following are most important to you (select all that apply but try to limit to the most important improvements):

- Improved entry road with bike lane, sidewalk and vehicle lanes
- Roadway improvements
- Lighting for roadways, walks and other areas
- Increased parking capacity in new parking lots
- Turf and landscaped areas
- Stabilized dunes for wind protection
- Removal of non-native plants and replacement with natives
- Other _____

7. Which statement best represents your opinion on what to do with the development of Fiesta Island:

- The island should be developed with similar park facilities as those found along east Mission Bay Dr. including turf areas, picnic areas and improved beach edges with restrooms, meandering walkways and parking lots.
- The island should be enhanced for wildlife habitats with limited and controlled recreational areas.
- The island should remain much as it is now, with its rough edges, roadside parking, open unimproved interior and ample areas for car side picnicking, beach wading and fire ring parties.
- The island should be maximized for recreation use, with a recreation emphasis on use of roadways and trails & aquatic uses along the shoreline.
- An effort should be made to balance refined parkland, with wildlife habitats and aquatic uses.

8. Which improvements would you give a priority to (rank numerically, with one being the highest priority):

- ___ Parkland improvements (open turf areas, playgrounds, picnic areas)
- ___ Improved circulation (wider entry road, improved roadways, bike lanes, multi-use trails)
- ___ Public facilities (restrooms, concession buildings, parking areas)
- ___ Active recreation facilities (volleyball, field sports, over the line)
- ___ Aquatic improvements (swimming beach, launching beaches, floating piers, improved shoreline)
- ___ Sustainable habitats and native revegetation projects
- ___ Improved environmental conditions, stormwater runoff, bay water quality, sand stabilization, erosion control

9. Please provide any other comments that may help in directing the development and use of Fiesta Island:

Please fold in half, tape, place stamp and mail
