Something In The Way She Moves – James Taylor  
Capo 2

A D A
There's something in the way she moves,

Em D G A
Or looks my way, or calls my name,

Em G C D
That seems to leave this troubled world behind.

A D A
And if I'm feeling down and blue,

Em D G A
Or troubled by some foolish game,

Em G C A
She always seems to make me change my mind.

Chorus:

A Em D A
And I feel fine any time she's around me now,

F#m Bm7 D E
She's around me now, almost all the time

A Em D A
And if I'm well you can tell she's been with me now,

F#m Bm7 E
She's been with me now … quite a long, long time

A G D A
And I feel fine.___________
BRIDGE:
D                              C
Every now and then
G                              D
the things I lean on lose their meaning
G           C        D
And I find myself careening
G                        Bm                       Em  A7
Into places where I should not let me go.

D                        C
She has the power to go
G                         D
where no one else can find me
G                              D
And silently remind me
G       C                     D                             Bm7
Of the happiness and the good times that I know..

E
Well I said I just got to know them.
A                           D        A
It isn’t what she’s got to say,

Em                        D               G                A
Or how she thinks or where she’s been

Em                       G             C             D
To me the words are nice the way they sound.

A                            D              A
I like to hear them best that way.

Em                       D          A
It doesn’t matter what they mean.

Em                      G          C        A
She says them mostly just to calm me down.

Chorus:
A            Em      D       A
And I feel fine any time she’s around me now,

F#m                  Bm7            D                   E
She’s around me now, almost all the time

A                  Em    D               A
And if I’m well you can tell she’s been with me now,

F#m                               Bm7          D
She’s been with me now … quite a long, long time

A   G   D   A
And I feel fine.___________
