

To reduce email clutter from this group as well as all other groups that you belong to:

1. Go to the '**Account**' tab in the upper right of your screen
2. Click on '**Membership & Communication**' on the left
3. Click '**Edit email settings**' link

(Please note that for the most part – most group email settings will have the following sections: Group notifications, Mailing list, Message boards, & Meetup reminders – but be aware that not all of these areas are available for every group.)

4. Under '**Group notifications**' – Deselect what notices you do not want to receive
5. Under '**Mailing list**' – Choose '**In one daily email**'
6. Under '**Message boards**' – Only select if you want to be notified when the message board is updated.
7. Meetup reminders – If you do not want reminders – deselect
8. Click the '**submit**' button

You will need to do this for each group that you are a member of.
