

**How A 21 FUN Casino Fundraiser Works**

A 21 FUN Casino Party operates just like a real Las Vegas casino! The only difference from Las Vegas is that 21 FUN dealers do not accept real currency at the gaming tables. 21 FUN money is used at all the gaming tables in exchange for casino-style chips. Betting limits and chip values are displayed at gaming tables.

Upon arrival and check-in, you will receive a pre-determined amount of casino scrip (play money), supplied by 21 FUN. You can buy more scrip money to play the casino by purchasing “21 Fun Paks” These booklets include casino scrip, casino prize raffle coupons, and gaming coupons.

Unlike Las Vegas however, no real money is won as a result of gaming. To be eligible to win the prizes when gaming closes, your casino winnings/chips must be exchanged for raffle tickets. 21 FUN dealers and the Casino Managers will exchange your winnings at the rate of (1) raffle ticket for every \$100.00 in casino chips or \$100.00 in unused 21 FUN money. Remember you must be present to win!
