"The sole object and only legitimate end of government is to protect the citizen in the enjoyment of life, liberty, and property, and when the government assumes other functions it is usurpation and oppression." - Article I, Section 35, Alabama Constitution

Government is out of control.

- **New government spending projects are being rolled out on a regular basis, with nothing to pay for them, creating debt that mortgages the future of our children's great-grand children.**
- **The FED, unchecked, is creating trillions upon trillions of dollars, inflating the currency, thus decreasing the value of the dollar.**
- **There are currently bills in Congress that would force anyone growing food to register and for every firearm to be registered. If registered, you would be subject to warrant-less searches at ANY TIME.**

We MUST ACT NOW if we are to see the Liberty our Forefather's intended restored to us in our lifetimes. We have to elect people to office who understand the principles of Liberty. We also have to understand and teach these principles.

Join us, together we can RESTORE our REPUBLIC!
