

# The SoCo Coding Foundry

## Introducing the SoCo Coding Foundry - the place to learn web technologies

**Pick your location** - June 24th @ Groundwork! in New Bedford or June25th @ the Business Innovation Center in Fall River. Both events started at 6:00pm.

Come and learn more about the NEW **SoCo Coding Foundry**. We help you grow your technical skills for developing software, applications and web sites. Get the technical training you need to be successful in the jobs of tomorrow. Do not get left behind in the ever changing world of technology.

These programs, held at the Business Innovation Center in Fall River MA and Groundwork! in New Bedford, will offer you hands on training targeted at building a solid foundation for web technologies or becoming proficient at computer programming. Find out how you can gain the skills to become a web site builder or application developer or online savvy professional.

**Find out about these exciting new programs and how they can benefit your career in an inspiring and informative introduction session lead by Dan Mahoney, a 30 year veteran of the software development business:**

- July: Developer Basics (everything that you need to know as a web developer or software developer but never learn.)
- August: Web Development course intro (a teaser).
- October: The full Web Development certification program.

**Sure to be a great event for beginner and intermediate skill levels.**

**We are always looking for businesses to help us define our curriculum.**

**We are looking for industry professionals to mentor our students.**

Light refreshments will be served.
